

# Overview of Staff Role - Supported Living Strand

Whilst each house within the Supported Living Service of Acorn Village has its own unique atmosphere and daily routine, they share the same values and aims.

Acorn Supported Living Services provide support to enable each individual to develop his or her own desired level of competence in a full range of independent living skills at a pace determined by the individual. To encourage autonomy, self-determination and self-confidence respecting each tenant as a unique individual with his or her own values, needs, opinions and desires.

We value a service, in which individuals' independence, privacy, dignity, choice and self direction are paramount.

The service strives towards responsiveness to both the individual and collective needs of tenants, empowering and supporting them, to realise their full potential in creating a lifestyle for themselves, which is fulfilling, satisfying and unique to their needs.

## Staff Career Opportunities

Within each house we have various staffing levels/roles and you will be supported to have every opportunity to progress further within your role through gaining vocational experience and by taking on training specific to your role.

Staff levels/roles within each house are as follows:

Support Worker (Induction/Foundation Level)

Support Worker

Senior Support Worker

Trainee Support Services Manager

Support Services Manager

Acorn Villages Ltd.
